WE NEED YOU!

WHY?

BECAUSE THE MAJORITY OF ADULTS IMAGINE THAT :

He did not see, she did not understand, he did not hear, she was not raped, he does not realize, she will forget, they do not suffer ...

IN REALITY, CHILDREN EXPOSED TO DOMESTIC VIOLENCE CAN LIVE :

Developmental disabilities, academic delay, anxiety, depression, attempts to suicide, drug addiction, bullying, eating disorders, mental illnesses and behavioral, lack of trust, gender-based violence, confusion roles, isolation, compulsions, stress, neuroses ...

The impact of violence is devastating for anyone who has suffered and witnessed it.

The program for children exposed to violence offers support and orientation in French for mothers and their children through lively sessions by front-line workers specialized in working with children and Youth in the Greater Toronto Area.

Such a service requires the collaboration of individuals, communities, public and private structures sensitive to this issue.
